# Product Carbon Footprint for ilxwkixrpx

Report by [carboncalcpcf.com](https://carboncalcpcf.com) - Senior Sustainability Consultant: fezhjrieuw

**57.46 kg CO<sub>2</sub>e**

Total Product Carbon Footprint

Functional Unit

**1.0 unit**

Reference basis for all quantified impacts.

System Boundary

**factory\_gate**

Emissions up to product leaving factory.

Production Country

**China**

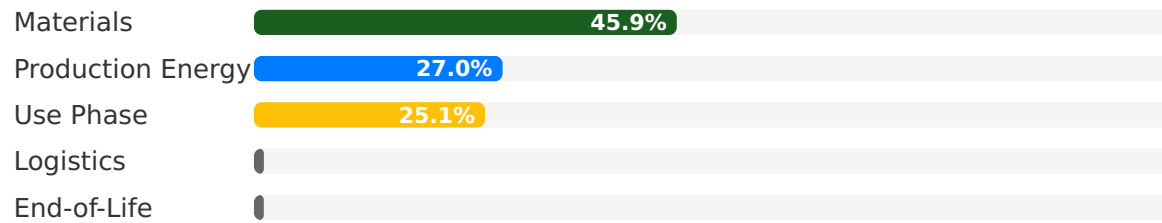

Location of final production.

Primary Emission Scope

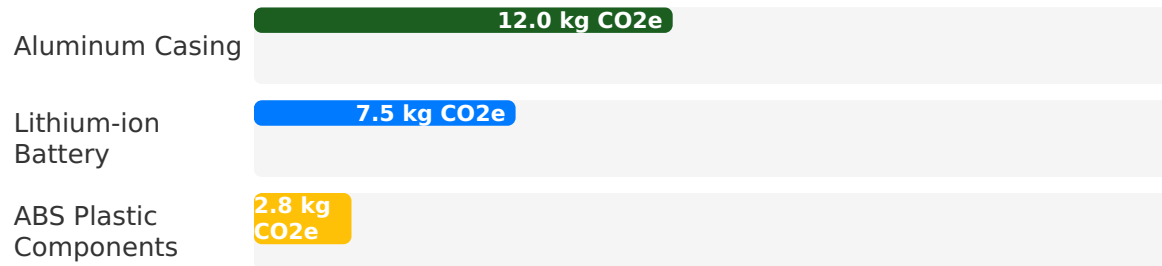

**Scope 3**

~73% of total, driven by materials & use phase.

## Lifecycle Stage Breakdown

## Material Carbon Impact (Top Contributors)

Percentage relative to Total Material Emissions (26.4 kg CO2e)
