

# Product Carbon Footprint: rwnzrvfw (Smart Home Sensor Hub)

**Total PCF:**  
**5.22**

kg  
CO<sub>2</sub>e

## Total Footprint

---

**5.22** kg CO<sub>2</sub>e

The total cradle-to-grave carbon footprint for one unit of rwnzrvfw.

## Carbon Intensity

---

**5.22** kg CO<sub>2</sub>e / unit

Emissions per functional unit, based on 1.0 unit produced.

## Primary Emission Scope

---

### Scope 3 Value Chain

Indirect emissions from the value chain, representing the largest portion.

## Top Material Hotspot

---

### PCB with Components (1.00 kgCO<sub>2</sub>e)

Identified as the single most carbon-intensive material component.
