- Materials: --
- Production (Scope 2): --
- Logistics: --
- Use Phase: --
- End-of-Life: --

## Key Highlights

Production Country

### China

Scope 3 emissions dominate the product's overall footprint.  
Final manufacturing location.

Long-distance logistics (both inbound and outbound) are a significant hotspot.

Scope 3 Coverage Target

Material selection and circularity initiatives offer substantial reduction potential.

## 95% (2026 Ready)

Aligned with upcoming GHG Protocol LSR.
